ABOUT ME

Tech-driven Software & Systems Specialist combining full-stack web/mobile development skills (React, Android Studio, Firebase, SQL) with hands-on IT infrastructure experience (VMware, Active Directory, Cisco networking, hardware diagnostics). Passionate about building robust software solutions while maintaining optimal network and system performance.

PROJECTS

SARI-SARI STORE MANAGEMENT SYSTEM - (TINDAHAN)

Personal Project \ Main Dev — Oct 05, 2026 - Present

- Developed a store management web application using React, TypeScript, and Firebase.
- Built features for point-of-sales, inventory, customers, suppliers,sales reports, and utang tracking.
- Implemented user authentication and cloud data storage with Firebase Authentication and Cloud Firestore.
- Created a companion mobileapp using AndroidStudio.

PORTJEEP MOBILE APPLICATION FOR DRIVER AND PAO

Capstone Project \ Main Android Dev — Aug 15, 2026 - Sep 28, 2026

- Developed a specialized mobileapplication for driversand PAOs usingJava, Android Studio,and Material Design 3.
- Engineered features for real-time schedule management, financial remittance tracking, and accident reporting with dynamic UI status updates.
- Implemented high-integrity security protocols, includingBiometric authentication, reCAPTCHA Enterprise, and AES-256 encryption for sensitive data.
- Integrated Firebase(Auth, Firestore, FCM) and a custom Vercel REST API to facilitate real-time data synchronization and automated shift reminders via AlarmManager.
- Integrated with IoT hardwarefor accident possiblecollision.

SMARTGROW: AI-BASED PLANT HEALTH ASSESSMENT

Capstone Project \ Support Dev — Aug 10, 2026 - Oct 03, 2026

- Engineered the AI-driven plant scanner using Gemini and SambaNova (DeepSeek) vision models to identify plant species and diagnose health issues from captured images.
- Developed SproutAI,an intelligent botanicalchatbot, implemented to provide real-timeplant care advice, pest management solutions, and interactive app walkthroughs.
- Orchestrated the database migration from Firebase RealtimeDatabase to CloudFirestore, re-architecting data structures for plant profiles, chat history, and user settings.
- Integrated FirebaseAuthentication and Firestore to manage secureuser sessions and persistent storage for scanned plant data and AI-generated care reports.
- Developed the Android application using Java, implementing complex API integrations and client-side image processing for seamless AI analysis.

JOLLYISLAND MANAGEMENT SYSTEM

Capstone Project \ Support Dev — May 16, 2026 - Sep 20, 2026

- Designed and developed the admin portal interface for dashboard, user, package, zone, RFID, and reporting workflows.
- Implemented FirebaseAuthentication and Cloud Firestore integrations for admin-side data and management features.
- Built the cashier frontendfor customer registration, access validation, entry/exit logs, live monitoring, and playtime tracking.
- Developed the web application using React, TypeScript, and Firebase.

SMNHS LIBRARY MANAGEMENT SYSTEM

Commision \ Main Dev Jan 2026, March 2026

- Developed a library portalusing React and TypeScript, with separate interfaces for students, teachers, and librarians.
- Built PHP API functionality for book catalog management, borrowing and returns, reservations, user accounts, announcements, and notifications.
- Connected the application to a MySQLdatabase for libraryand account records.
- Integrated emailnotifications and an AI chatbotwith Ollama, with optional GeminiAPI support

TECHINICAL SKILLS

- Programming & Web Development: TypeScript, JavaScript (ES6+), React (TSX), HTML5, CSS3, Java, C#m PHP
- UI/UX & Design Tools: Figma, Adobe XD
- Databases & Cloud: MySQL, PostgreSQL, Firebase (Firestore / Realtime Database & Authentication)
- IDEs & DeveloperTools: Android Studio, Visual Studio, Visual Studio Code Apache NetBeans
- Networking & SystemAdministration: VMware Virtualization, Active Directory DomainServices (AD DS), DNS, DHCP, Cisco Packet Tracer (Hardware/Network Configuration)
- Hardware & IT Support: System Diagnostics, PC & Laptop Hardware/Software Repair, Peripheral Maintenance (Printer Servicing & Printhead Calibration)

EDUCATION

Bulacan State University - Sarmiento Campus
Bachelor of Science in Information Techonology | 2023 – 2027
- Dean's Lister (Academic Year 2024 - 2025)

San Martin National High School
Senior High School | 2021– 2023
- With Honors

San Martin National High School
Junior High School | 2016– 2021
- With Honors

Bagong Buhay B. Integrated Elementary School
Elementary School | 2010– 2016
- With Honors
