ABOUT ME

Tech-driven Software & Systems Specialist combining full-stack web and mobile development skills (React, Android Studio, Firebase, SQL) with hands-on IT infrastructure experience (VMware, Active Directory, Cisco networking, hardware diagnostics). Passionate about building robust software solutions while maintaining optimal network and system performance.

PROJECTS

SARI-SARI STORE MANAGEMENT SYSTEM - (TINDAHAN)

Personal Project | Main Developer — Oct 05, 2026 - Present

- Developed a store management web application using React, TypeScript, and Firebase.
- Built point-of-sale, inventory, customer, supplier, sales report, and utang tracking features.
- Implemented Firebase Authentication and Cloud Firestore, and created a companion Android app.

PORTJEEP MOBILE APPLICATION FOR DRIVER AND PAO

Capstone Project | Main Android Developer — Aug 15, 2026 - Sep 28, 2026

- Developed a specialized driver and PAO app using Java, Android Studio, and Material Design 3.
- Built real-time schedule management, financial remittance tracking, accident reporting, and dynamic status updates.
- Implemented biometric authentication, reCAPTCHA Enterprise, and AES-256 encryption for sensitive data.
- Integrated Firebase Auth, Firestore, FCM, and a Vercel REST API for synchronization and AlarmManager shift reminders.
- Integrated IoT hardware for possible collision detection.

SMARTGROW: AI-BASED PLANT HEALTH ASSESSMENT

Capstone Project | Support Developer — Aug 10, 2026 - Oct 03, 2026

- Engineered an AI plant scanner using Gemini and SambaNova (DeepSeek) vision models to identify species and diagnose plant health.
- Developed SproutAI, a botanical chatbot for plant care advice, pest management, and app walkthroughs.
- Migrated Firebase Realtime Database to Cloud Firestore for plant profiles, chat history, and user settings.
- Integrated Firebase Authentication and Firestore for secure sessions and persistent scan data and AI reports.
- Developed the Android app in Java with API integrations and client-side image processing.

JOLLYISLAND MANAGEMENT SYSTEM

Capstone Project | Support Developer — May 16, 2026 - Sep 20, 2026

- Designed the admin portal for dashboard, user, package, zone, RFID, and reporting workflows.
- Implemented Firebase Authentication and Cloud Firestore for admin management features.
- Built cashier workflows for registration, access validation, entry and exit logs, live monitoring, and playtime tracking.
- Developed the web application using React, TypeScript, and Firebase.

JOHN KURBY DR. VALENCERINA

SOFTWARE & SYSTEMS SPECIALIST

SMNHS LIBRARY MANAGEMENT SYSTEM

Commission | Main Developer — Jan 2026, Mar 2026

- Developed a React and TypeScript library portal with separate interfaces for students, teachers, and librarians.
- Built PHP API functionality for catalog management, borrowing and returns, reservations, accounts, announcements, and notifications.
- Connected the application to a MySQL database for library and account records.
- Integrated email notifications and an Ollama AI chatbot with optional Gemini API support.

TECHNICAL SKILLS

- Programming & Web Development: TypeScript, JavaScript (ES6+), React (TSX), HTML5, CSS3, Java, C#, PHP
- UI/UX & Design Tools: Figma, Adobe XD
- Databases & Cloud: MySQL, PostgreSQL, Firebase (Firestore, Realtime Database, Authentication)
- IDEs & Developer Tools: Android Studio, Visual Studio, Visual Studio Code, Apache NetBeans
- Networking & System Administration: VMware, Active Directory (AD DS), DNS, DHCP, Cisco Packet Tracer
- Hardware & IT Support: System diagnostics, PC and laptop repair, peripheral maintenance, printer servicing, printhead calibration

EDUCATION

Bulacan State University - Sarmiento Campus

BS Information Technology | 2023 - 2027

Dean's Lister (AY 2024 - 2025)

San Martin National High School

Senior High School | 2021 - 2023

With Honors

San Martin National High School

Junior High School | 2016 - 2021

With Honors

Bagong Buhay B. Integrated Elementary School

Elementary School | 2010 - 2016

With Honors
